

## IR over HDMI Injector Kit

1. Install the HDMI IR dongle between the HDMI input on the TV and your HDMI cable. Ensure that the switch is set to "IR". Plug the IR Receiver (see 'Pack Contents - 2.')
2. Position the IR Receiver ( see 'Pack Contents - 2.')
3. Install the HDMI IR dongle between the HDMI input on the source and the HDMI cable, similarly to point 1. Again, ensuring that the switch is set to "IR".
4. Plug the IR Transmitter (see 'Pack Contents - 1.')
5. Position the IR transmitter ( see 'Pack Contents - 1.')

## Pack Contents

1. IR Transmitter
2. IR Receiver
3. IR Dongle (both labled RX)
